Degree Benefits
The increased use of computers by private businesses, nonprofit organizations and governmental agencies has created significant demand for individuals qualified in the field of information technology management. This degree provides fundamental training in business management and information technology skills.

Job Options
Increasing opportunities exist today in the fields of information technology management, database administration, education, general management, government, hospital administration, network management, production management, purchasing management and retail management.

Program Objectives
The student who successfully completes the program is provided with practical skills currently in demand in today’s changing marketplace. Students will be qualified for entry-level jobs in management information systems.

University Resources
The Department of Business and Economics features the close, personal involvement of dedicated faculty typical of a smaller institution that specializes in teaching. At the same time, the department offers the broad scope of modern support technology found at larger universities. Based on a tradition of teaching excellence, Cal U offers a warm association among students and faculty.

Students may participate in the business internship program in which they may spend a term or summer session working at an area business, industry, government agency or professional office. A number of these on-the-job experiences have led to permanent employment.
